One 102.4 m ground square, four sensors (D040-2021 / NF-S1-7_1-1)

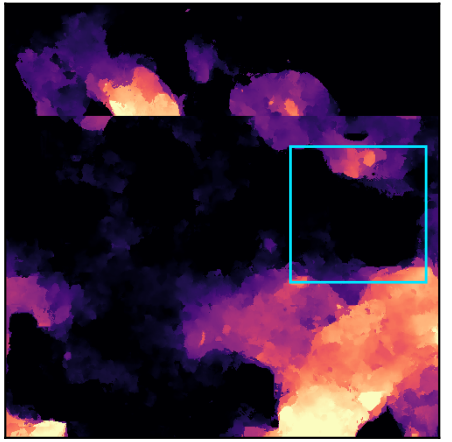

Sentinel-2
10×10 px 10.24 m/px

SPOT (model input)
64×64 px 1.60 m/px

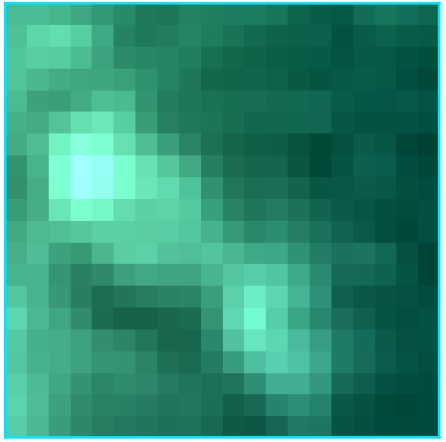

nDSM (elevation)
512×512 px 0.20 m/px

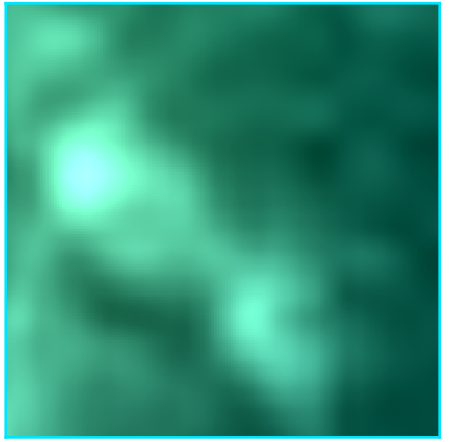

Aerial (target)
512×512 px 0.20 m/px

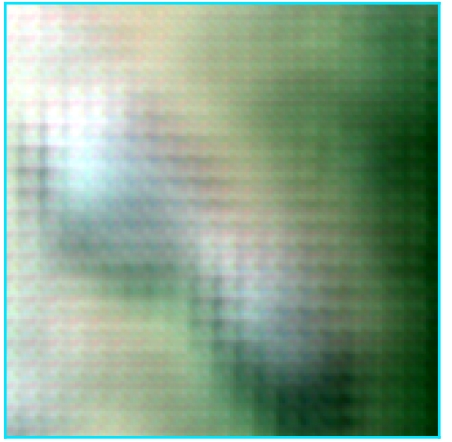

SPOT input (nearest)

Bicubic control
gradient 0.0021

EDSR
gradient 0.0061

Aerial target
gradient 0.0232

Bottom row: 160 px window = 32.0 m on the ground, at the target's densest detail. All panels percentile-stretched for display; the model sees the training normalisation.
